Phase 04

Influences Enablers Amplifiers and Adverse Conditions

04

PHASE IN MODEL

Identify contextual forces that help, magnify, or undermine a response.

Project / team: _____ **Community / setting:** _____ **Date:** _____

Identify influences

Which economic, geographic, cultural, policy, or institutional forces shape this setting?

Which forces can the project influence and which must it accommodate?

Find enablers

What trusted relationships, funding, assets, skills, or policies make progress possible?

How can those conditions be maintained?

Find amplifiers

What could spread or strengthen a useful intervention across people or settings?

Could an amplifier also magnify exclusion or unintended effects?

Anticipate adverse conditions

What risks involve affordability, privacy, accessibility, language, trust, or continuity?

Which early warning signs and safeguards should be included?

Phase output: What will you carry forward to the next decision or phase?
