Phase 09

General Results and Implementation Progress

09

PHASE IN MODEL

Track what happened and distinguish delivery from early change.

Project / team: _____ **Community / setting:** _____ **Date:** _____

Record implementation

Which milestones were met? What was installed, distributed, taught, or supported?

Where did timing, costs, quality, or coverage differ from the plan?

Observe early results

Who adopted the service? What changed in confidence, task completion, or support use?

What did participants say worked or failed?

Compare with the baseline

Which measures improved, stayed flat, or worsened for different groups?

Could another change explain the pattern?

Decide the operational response

What bottleneck, unintended burden, or exclusion emerged?

What will the team adjust immediately, and who is responsible?

Phase output: What will you carry forward to the next decision or phase?
